

# Post show report

**WindEnergy Hamburg is the world's leading trade fair for the wind industry!**

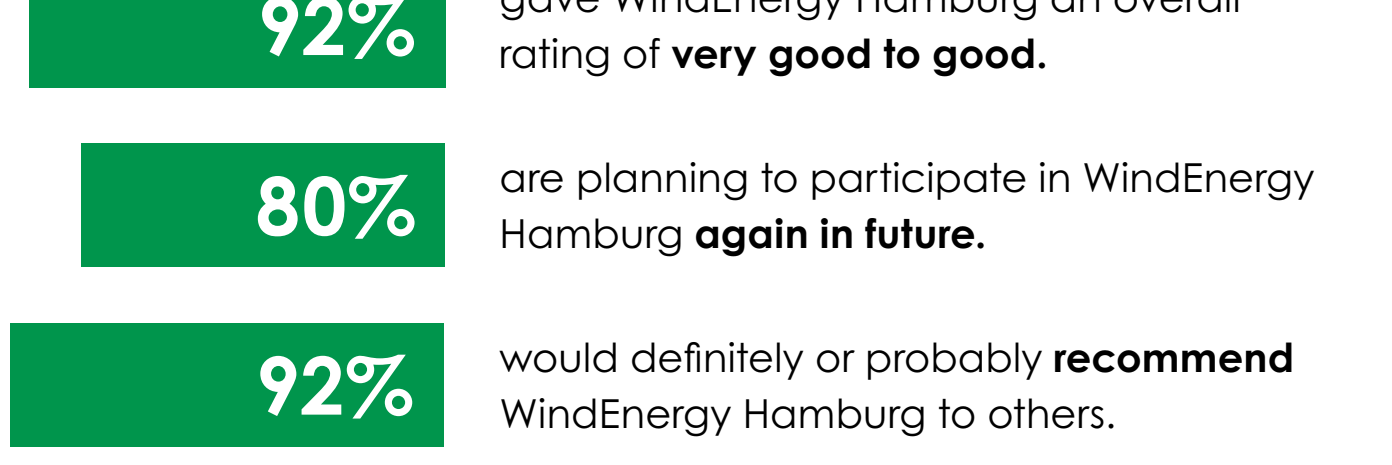

Every two years the international onshore and offshore wind energy industry meets in Hamburg to get informed about the latest technologies and services, arrange future projects, and build and expand business networks.

The exhibition floor, the conference programme including the subsequent Wine o'clock gatherings, and more than one hundred exhibitor events at the stalls provide abundant opportunities to exchange knowledge and ideas, and network.

## Facts & Figures

## Top ratings by exhibitors

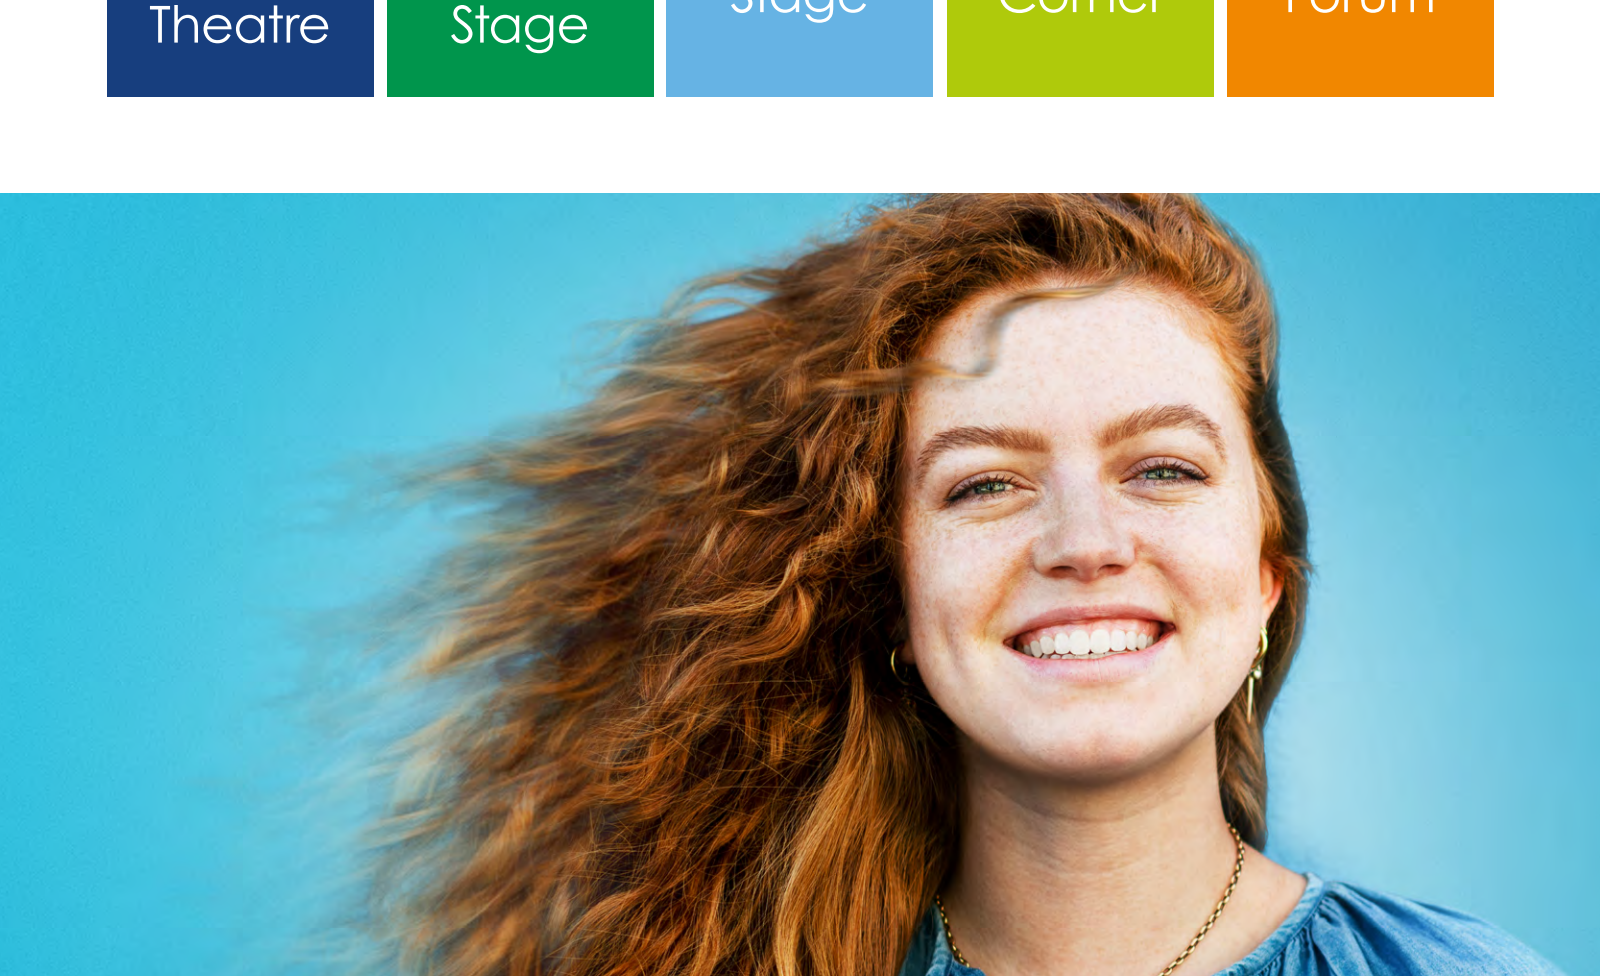

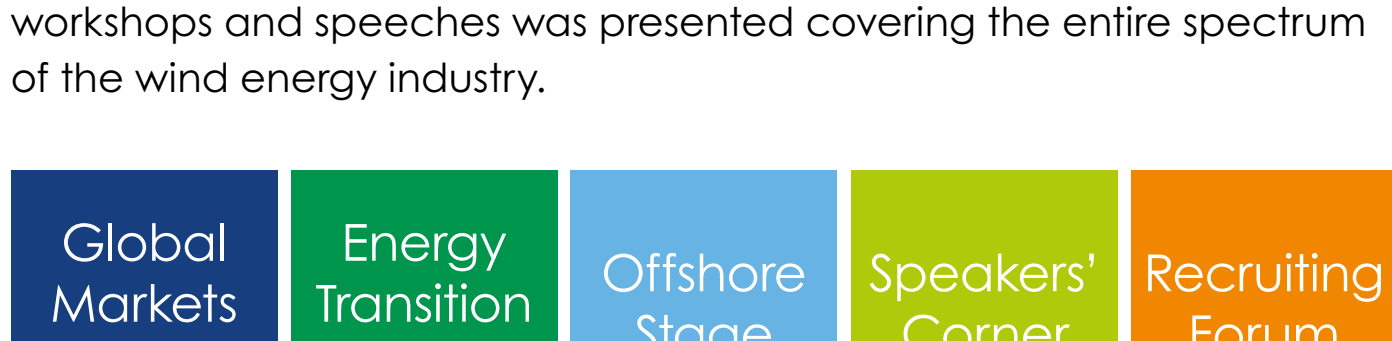

## Successful business deals

## More than 300 speakers on five stages

**WindEnergy Hamburg is more than a trade fair:** The comprehensive supporting programme on five stages provided every participant with opportunities to expand their knowledge and build their business networks. A top-flight programme of expert forums and conferences, workshops and speeches was presented covering the entire spectrum of the wind energy industry.

## Recruiting as a featured topic

Acknowledging the industry's strong interest in recruiting, this year's fair included **two Recruiting Days**, held on Thursday and Friday, where interested job entrants as well as professionals from other sectors were able to learn about career options and training opportunities in the wind industry.

Around 60 exhibitors took advantage of the **Recruiting Days** to highlight their employer brands in presentations and at information desks, while posting employment opportunities at the **Job Wall**.
